The Decoration Almanac

The Decoration Almanac should be read as a collection of Stories about Interiors, aesthetes, symbols, real and unreal places. A project conceived to portray Bonacina 1889's philosophy and products with an editorial perspective.

Experimentation, reinterpretation, decontextualization: hints and inspirations are created by different atmospheres painted through the language of photography.

A story that lives on in time, developed in chapters: a way to grasp the thousand nuances of Bonacina 1889 with the aim of returning a vivid and solid image through creative fragmentation.

A Gentleman's Garden

In the heart of a tranquil town near the Como Lake, a green secret hides a hidden treasure amidst the ornate railings of an ancient property. This garden has been transformed into a marvellous botanical paradise, where every corner reveals new surprises and unexpected lushed rooms.

This corner of green paradise is the work of a devoted plants and flowers caretaker, whose love for nature has turned this garden into an oasis of enchanting beauty.

As soon as you step through the entrance, you find yourself immersed in a world of colours and scents, a green labyrinth where every little detail reflects the dedication of its guard. The garden is a harmonious blend of English and Italian gardens with well-kept pathways, elegant fountains, flowerbeds, and botanical rooms hidden among the trees and shrubs.

Small rooms with intertwined boxwood hedges lead to secret garden shaded by centuries-old trees. Every corner is designed to welcome the visitors: among the hedges, flowers bloom as if painted by a talented artist.

The experience suggests to those who visit it many glimpses of a meticulously maintained garden that reflects the elegance of a true gentleman.
