Colori contemporanei
e forme geometriche,
tessuti trasparenti o
elegantemente strutturati,
velour esclusivo o
pregiatissime sete, le
collezioni Sahco offrono
infinite opportunità di
arredo personalizzato con
stile e leggerezza.

*Contemporary colors
and geometric forms,
translucent or elegantly
shaped fabrics, exclusive
velour and exquisite silks
- the Sahco collections
offer endless possibilities
of bespoke, stylish and
graceful furniture.*

The 2017 collection of the famous German brand is inspired by nature, that has been represented in a colorful and stylized way within interesting textile structures. For almost two centuries, Sahco, textile editor of Nuremberg, offers any kind of fabrics, cushions, handmade rugs, fashionable accessories such as curtain cords and rings. The warm sun of Cuba, the brilliant colors of Bali, the transparency of the sea of Changuu or the charm of Ischia, enliven the large collection of this year, characterized by a deliberately simplified design. It plays with geometric shapes, which enrich the exclusive velour or the imperceptible, transparent fabrics. Sahco can be distinguished for its fine craftsmanship, which can also be find in the Printemps collection, where Ulf Moritz creates lightness and style, using innovative pastel colors. In addition, the designer deals with materials such as raffia and lurex, as to give to the extraordinary drawings reflections characterized by unusual metallic effects. The collection of Moritz could not forget to include new accessories: borders, bracelets, handmade tassels with exotic names and colors, elements which arouse enthusiasm because of their exclusivity and elegance. From linen to plastic, from leather to metal, from polystyrene to wood, these materials increase the allure of these one-of-a-kind and stylish pieces. Pieces that, if combined with the new fabrics, reveal once again the unique character and splendor. www.sahco.com
