Remaining faithful to its DNA, Bonacina continues to collaborate with young talents with the development of an exclusive textile capsule collection together with Italian-Thai artist and designer Giulia Peyrone.

Giulia Peyrone

Giulia was born and raised between Thailand and Italy. The combination of two different cultures is a key feature of Giulia's creative approach, just like Bonacina's designs which have at the heart a material that comes from South East Asia combined with Italian technical excellence.

The Collaboration

The bold patterns have been designed for both the outdoor and indoor environments, with a color way that takes inspiration from exotic lands and colorful vegetation. The theme of repetition and the geometry of the textile are matched with a vibrant palette, in perfect harmony with rattan core weaves that distinguish Bonacina's collections.
