The Decoration Almanac

The Decoration Almanac should be read as a collection of Stories about Interiors, aesthetes, symbols, real and unreal places. A project conceived to portray Bonacina 1889's philosophy and products with an editorial perspective.

Experimentation, reinterpretation, decontextualization: hints and inspirations are created by different atmospheres painted through the language of photography.

A story that lives on in time, developed in chapters: a way to grasp the thousand nuances of Bonacina 1889 with the aim of returning a vivid and solid image through creative fragmentation.

Living Al fresco

In northern Italy, on the slopes of Mount Canto, lies a small village surrounded by forests, fields and chestnut groves. In this quiet, lush green spot, architect Livia Pansera has transformed the family home into an idyllic retreat, far from city traffic.

The absolute star is the garden: different verdant rooms, delimited by rose gardens and ancient trees, recreate distinct areas, each with its own identity and function.

An atmosphere in which the past is carefully incorporated into the contemporary. Elegant architectural elements are integrated with raw, tactile materials such as stone, natural fibres and wood. Fragrant blots of colourful flowers frame outdoor furniture featuring decorative details and weave with a timeless aesthetic, shown in a vibrant palette.

Shades of light blue in the pool area live with the rigour of black on the terrace and patio. Tones of yellow and terracotta colours speak of a place where time and seasons flow slowly, punctuated by the blooms and vegetables from the local garden.

Welcome to a flourishing garden, an oasis of peace par excellence.
